**Testimony**

Some years back, I went for ectopic gestation surgery. A year later, I underwent a serial dilution which resulted in severe pain and bleeding. This went on for a very long time. I got tired of going to the hospital three days a week, so I decided to see a specialist who carried out a scan. When my scan result came out, it revealed that I had a mass in my stomach. The doctor examined it and suggested another surgery to remove it. He said that the mass could be a cancer threat. He referred me to another specialist in Bayelsa state. When I heard the report, I became afraid and I cried from the hospital to my house.

On my way home, I remembered a message preached by Pastor Charles Omofomah during a Broken Wall Healing School. In that message, he said that God is the one who performs surgeries without leaving a scar. I dried my tears immediately and started praising God for performing surgery on me without leaving any scars. The following Thursday being a teaching service, I sowed a seed equivalent of the amount I was to pay the consultant I was supposed to meet in Bayelsa State. I got home after the service with joy, praising God for my healing.

On Saturday that same week, I had an experience that I cannot explain: my body system changed within a minute, I felt a need to use the toilet and when I sat on the toilet seat, I felt something coming out of my body and it dropped into the toilet. I checked the toilet and saw something that I cannot explain its look. That was how the mass came out after several months. The bleeding stopped and my body was restored.
